

DAY 4 WEDNESDAY, JULY 21, 2010
HARBOR SPRINGS TO MACKINAW CITY, MICHIGAN 43.3 MILES

Day 4 of this year's Michigander begins along one of the most scenic roads in the state. The M-119 "Tunnel of Trees" winds high above the shoreline of Lake Michigan. If it's clear you'll be able to see Beaver Island in the distance. There are a few spots to stop for a snack. The first is at Good Hart which has a general store. Cross Village has the historic Legs Inn. If you're not in a hurry and feel like waiting for them to open, it's a great place to eat an early lunch. Otherwise you'll have to settle for a snack at the convenience store. You can always ride back out here tomorrow on the loop route. We follow a bit more of the shoreline out of Cross Village before heading inland. There are opportunities play on some sand dunes or take a swim if you'd like to cool off. Mountain bike riders may want to take a side trip into Wilderness State Park west of our final SAG stop in Cecil or at The Headlands Park just before we get to Mackinaw City. You can pick up a map of the single tracks once you get to the parks. Many of you will have plenty of time to head over to Mackinac Island if you desire. The Mackinaw City area has way too many attractions to list here but one of the highlights is the nightly laser light show. Pick up an activity list at the information table. Tonight, in camp, after the nightly rider meeting we will have the final edition of our bicycle rodeo.
